 - ASP.Net, React, .Net Core, NodeJS, IntelliJ
-

Experience

Food Service Worker @ McDonalds / San Jose, California OCT 2022 – FEB 2023

Food service worker at McDonald's with 5 months of experience. Consistently provided efficient and friendly service while handling cash, food preparation and customer requests. Demonstrated strong teamwork skills in fast-paced environment.

Volunteer @ CodeDay / San Jose, California DEC 2021 – PRESENT

Helped organize a virtual event that resulted in hundreds of students. Worked with others to help find speakers and workshop hosts. Received a Paragon Award for working hard.

Tech @ ThetaHacks / San Jose, California DEC 2020 – JAN 2022

Worked as a team to create a hackathon, website, and discord bot that resulted in over 500 signups and over 80 projects submitted. As part of the tech team, I made the Minecraft server and implemented custom commands and worlds.

Co-Leader @ Hack Club / San Jose, California AUG 2020 – MAY 2021

Taught about a dozen students how to program in a school with little Computer Science knowledge. Made multiple projects while teaching and helped the students make amazing programs.

Volunteer @ eBay / San Jose, California JULY 2019

Part of the teaching team I helped teach a classroom full of children how to program in Python and showing them various projects that can be made in Python.

Education

High School / University Preparatory Academy, San Jose CA AUG 2019 – JUNE 2023

GPA 3.8. Took AP Computer Science and AP Lang. Lead a programming club at the school. High School diploma.

Dual Enrollment / Gavilan Community College, San Jose AUG 2020 – DEC 2022

GPA 4.0. Took a C# programming class and a World History class.

Dual Enrollment / Foothill Community College, San Jose SEP 2022 – DEC 2022

GPA 4.0. Took a Linux Security Administration class and a Cybersecurity class.

Dual Enrollment / Evergreen Valley Community College, San Jose JUN 2022 – JUL 2022

GPA 4.0. Took a C programming class.

Projects

Hackathon Discord Bot / TypeScript <https://github.com/ThetaHacks/ThetaHacksBot>

A discord bot that is meant for Hackathons. It is very easy to edit to suit the Hackathon's needs.

StarItAll Web / C#, ASP.Net <https://github.com/kaidevrim/staritallweb>

A website to star all your friend's repos on GitHub!

XKCD.Net / C#, Unit Tests <https://github.com/kaidevrim/xkcd.net>

A Cross Platform application for downloading videos off various streaming services

ThetaHacks 2022 Site / React, TypeScript <https://github.com/kaidevrim/thetahacks2022>

Official site for the second iteration of ThetaHacks Hackathon, which was a sequel to the original ThetaHacks that gained over 500 signups.
